

Vademecum Webinar

18.6. 2024 at 14:00 – 15:30 CET

Language: English

Sign in until 10.6.2024: Hana Adamcová M.A.

hana.adamcova@medsektion-ikam.org

After several years of preparation, the first contents of the eurythmy therapy vademecum went online in March 2024. This is a joyful and important step for the Vademecum team. We look forward to your cooperation so that the Vademecum can now continue to grow and reflect the many valuable experiences that colleagues have with eurythmy therapy on a daily basis. **The webinar is intended to help you fill out treatment sheets.** We will tell you about our experiences and give you the opportunity to ask your questions. We would also like to show you examples of how a fruitful collaboration between doctor and eurythmy therapist can be achieved when working on the treatment sheets for the Vademecum.

We look forward to your active participation!

Katharina Gerlach, Eurythmy-Therapist. Doctorate on the topic of *Documentation of Movement-oriented Mind-Body therapies* at the University of Witten/Herdecke. Head of the Institute for Eurythmy Therapy and employee at the Research Institute (RIArT), Alanus University of Arts and Social Sciences. Team International Coordination Anthroposophic Medicine/Department Eurythmy-Therapy. Established in own practice in the Therapeutikum Krefeld. Therapy and research cross fertilize each other and promote creativity in both fields. Development of the Case Vignette

Eurythmy-Therapy (FAVI-EYT) format, in which the interaction of science and therapy can find expression.

Dr. Matthias Girke, is a co-founder of the Havelhöhe Community Hospital, Clinic for Anthroposophic Medicine, where he was Head of General Internal Medicine for over 21 years. Today, he still works in an advisory capacity and in the clinic's outpatient department. From 2016 to 2023, Dr Matthias Girke was Head of the Medical Section of the School of Spiritual Science at the Goetheanum in Switzerland and has been a member of the Board of the General Anthroposophical Society since April 2017.
